America looks rich. But it's broke.
It doesn't make. It borrows.
It doesn't build. It bombs.
Its last export? Debt.
Let's expose the IOU empire for what it is.

The Empire of Debt

China builds.
America borrows.
The whole US economy runs on IOUs and illusions.
Let's expose the last trick of American dominance, 1/20

China produces most of the world's steel, EVs, ships, solar panels, batteries, and graduates in science and engineering.
What does the US produce?
Debt, 2/20

The Fed doesn't just set interest rates.
It props up the entire fantasy of American wealth by inflating assets and exporting inflation, 3/20

Americans don't live off income, they live off credit.
Student loans. Car loans. Mortgages. Medical debt.
It's a country that leases its own future, 4/20

The real US export isn't tech or oil.
It's financialization: turning everything into a tradeable product , housing, education, even human health, 5/20

Wall Street killed Main Street.
Offshored the factories.
Privatized the profits.
Socialized the losses, 6/20

In 2008, they called it a "crisis."
Then bailed out the crooks and did it all over again.
America never recovered, it papered over the wreckage with printed money, 7/20

Today's dollar isn't backed by gold or goods.
It's backed by Pentagon threats and media gaslighting, 8/20

China spends trillions building rail, ports, and factories.
The US spends trillions bailing out banks and buying weapons, 9/20

STEM PhDs?

China graduates more than 10 times as many.

American kids drown in debt for gender studies while China trains engineers, 10/20

US military dominance?

It's a trillion-dollar bluff.

Can't even win wars against barefoot insurgents, 11/20

Chinese state-owned banks fund infrastructure, housing, and tech.

US banks fund stock buybacks, derivatives, and payday loans, 12/20

The Chinese middle class is growing.

The American middle class is extinct.

But the stock market hits all-time highs, 13/20

China has a social contract.

America has a credit score, 14/20

The US says China's economy is "distorted."

Translation: It doesn't let Wall Street loot it, 15/20

The IMF and World Bank were built to keep the Global South in chains.

China is breaking those chains with the Belt and Road, 16/20

When the US can't compete, it sanctions.

When it loses ground, it smears.

When its lies don't work, it bans the truth, 17/20

China is building the next global economy.

The US is busy building narratives, 18/20

The empire isn't collapsing.

It already collapsed.

What you see now is the smoke and mirrors of the Federal Reserve, 19/20

America's last real export is debt.

And the world is waking up, 20/20
